## DIRECTOR – VETERINARY MEDICAL CENTRE

The Western College of Veterinary Medicine (WCV) invites applications for the position of Director of the Veterinary Medical Centre (VMC).

**The Veterinary Medical Centre:** The VMC has undergone substantial expansion and renovation, and it is currently an outstanding state-of-the-art facility serving western Canada as an accredited hospital and referral centre through the American Animal Hospital Association. Recent equipment and diagnostic enhancements include a new MRI, a 16 slice CT scanner, nuclear scintigraphy, linear accelerator, surgical suites and examination rooms, an Equine Performance Centre and a dedicated MRI. The VMC employs approximately 100 people and interacts with over 60 faculty in two clinical departments. Each year the hospital cares for 13,000 animals, and an additional 30,000 animals are treated through 3,800 field service visits. The annual expenditure operating budget is approximately \$9.7 million. The VMC is a critical part of the College's service, research and teaching mission.

**The Western College of Veterinary Medicine:** The WCV is western Canada's regional college of veterinary medicine. Approximately 80 students per year from the four western provinces and the northern jurisdictions begin studying toward the DVM degree. The College also includes 140 graduate students, interns and residents. It is part of a comprehensive academic health sciences group on the university campus, with access to facilities including the Canadian Light Source and the Biomedical Beamline. For further information, please visit [www.usask.ca/wcv](http://www.usask.ca/wcv).

The WCV is located in Saskatoon, Saskatchewan's largest city – one of the sunniest cities in Canada. For more information on Saskatoon, please visit [www.tourismsaskatoon.com](http://www.tourismsaskatoon.com).

**Duties:** Reporting to the Dean, the Director will play a key leadership role in the College through administration of the VMC, particularly in the areas of financial, client and human resource management. The Director will be instrumental in playing an important role in supporting the integration of the VMC's clinical service and business requirements with the academic objectives of the College. In addition, the Director will also manage varied infrastructure and facility enhancements.

**Qualifications:** This position requires an individual with excellent interpersonal and communication skills, demonstrated skills in human resource and financial management, and experience in a clinical veterinary medical environment. Ideally, applicants should possess a DVM or equivalent degree plus experience or formal training in administration or business management.

**Salary:** Commensurate with qualifications and experience.

**We will begin reviewing applications in early November.** Interested persons should submit a letter of intent, curriculum vitae, and the names and contact information of three references to:
