Parameterisation of Water Flow and Storage Processes: Theoretical and Practical Approaches for the IP3 Research Basins
An IP3 Workshop Hosted by the Cold Regions Research Centre

Tuesday, 17 June, 2008
Paul Martin Centre, Wilfrid Laurier University
Waterloo, Ontario

8:00-8:30  Registration

8:30-8:50  Session 1: Welcome and Introduction to Workshop
Chair: S. Carey
R. Petrone, CRRC Director
J. Pomeroy, IP3 PI
W. Quinton

8:50-10:30 Session 2 – Parameterisation: Perspectives and Approaches
Chair: D. Verseghy
Environment Canada

8:50-9:10  M. Hayashi
Univ. Calgary
9:10-9:30  S. Carey
Carleton Univ.
9:30-9:50  M. Mackay
Environment Canada
9:50-10:10 P. Dornes
Univ. Sask.
10:10-10:30 F. Seglenieks & E.D. Soulis
Univ. Waterloo

10:30-11:00 Coffee Break

11:00-12:30 Session 3 – Breakout Groups: How to parameterise the major water flow and storage processes in the IP3 research basins.
Chair: W. Quinton
W.L.U.

12:30-13:30 Buffet Lunch

13:30-15:30 Session 4 - Breakout Group Reports and Summary Discussion
Chair and Moderator: J. Pomeroy
Univ. Sask.

13:30-15:00 Rapporteur Reports
15:00-15:30 Open Discussion

15:30-16:00 Coffee Break

16:00-17:00 Session 5 – Reflections and Feedback from Modellers
Chair and Moderator: M. Hayashi
Univ. Calgary

16:00-16:15 D. Verseghy
Environment Canada
16:15-16:30 V. Fortin
Environment Canada
16:30-16:45 B. Tolson
Univ. Waterloo
16:45-17:00 Open discussion

17:00-end Concluding Remarks
J. Pomeroy / W. Quinton
Univ. Sask. / W.L.U.
