The Saskatoon Regional Science Fair provides the opportunity for the brightest students from Saskatoon and the surrounding region to come together and present their scientific achievements to the wider community. This year the fair will be held at the University of Saskatchewan on April 9, 2014.

Student projects, including experiments, innovations, and studies, are judged by professionals from academia and industry to win cash prizes and an opportunity to compete at the Canada-Wide Science Fair held in mid-May.

Grade 6-12 students are eligible to compete in the Saskatoon Regional Science Fair, and grade 7-12 students are eligible to compete in the Canada-Wide Science Fair. Students can register at usask.ca/srsf beginning January 1. Registration closes on March 31.

The Saskatoon Regional Science Fair receives sponsorship from many corporations, organizations, and professional associations, including platinum sponsors University of Saskatchewan, PotashCorp, and AREVA Resources.

The organizing committee is comprised of university faculty, research scientists, high school educators, undergraduate and graduate students, and science fair alumni.

For more information on ways to become involved as a participant, volunteer, sponsor, or judge, please visit usask.ca/srsf or contact Scott Adams, Chair, Saskatoon Regional Science Fair, at chair.srsf@gmail.com.
