Prof Giesy was the primary lecturer in a two week summer course entitled Ecotoxicology that was taught in at Xiamen University June 30th through July 11th 2008. The course was taught by faculty from Xiamen University’s State Key Laboratory of Marine Environmental Science and from City University of Hong Kong and attended by 50 students from across China. The course included lectures, exercises and a field trip to learn about studies being conducted in Xiamen Harbor.

Prof. Giesy was made a Guest Professor at Xiamen University in Xiamen China. He will assist colleagues and their students in designing and conducting studies. He will join the “111” Project on Environmental Toxicology. This is the third professorship that he holds in China. He is also Chair Professor at Large in the Department of Biology and Chemistry at City University of Hong Kong and a Concurrent Professor in the School of Environment at Nanjing University, Nanjing China.
