Saskatchewan Psychiatric Association

Annual Conference

in conjunction with the Canadian Psychiatric Association
CONFERENCE GOALS

The SPA Annual Conference is designed for all mental health professionals and advocates, including practicing psychiatrists and family physicians. Psychologists, nurses, pharmacists, mental health and social workers are welcome to attend.

This highly engaging conference is a collaborative annual event planned by the Canadian Psychiatric Association and the Saskatchewan Psychiatric Association, focused on improving the practice of psychiatry.

Presentations by national experts provide the most current evidence-based updates in psychiatric treatments, approaches, and controversies, covering singular topics in depth and detail. The conference planning committee is representative of family physicians and psychiatrists, some with sub-specialties.

CONFERENCE LEARNING OBJECTIVES

Conference participants will be able to:

- critically evaluate the integrity, reliability and applicability of health-related research and literature
- integrate current evidence-based approaches into clinical decision-making
- demonstrate an understanding of scientific principles underlying psychiatric treatments
- summarize and communicate the findings of relevant research in the study and treatment of various psychiatric conditions to patients and their families
- demonstrate a commitment to psychiatric patients by applying best practices and adhering to high ethical standards
The College of Family Physicians of Canada
Mainpro (Maintenance of Proficiency) is the College of Family Physicians of Canada (CFPC) program designed to support and promote continuing professional development for family physicians. Physicians participating in Mainpro demonstrate a commitment to lifelong learning through completion and documentation of personal CPD. The Saskatchewan Psychiatric Association Annual Conference has been accredited by the Division of Continuing Medical Education, College of Medicine, University of Saskatchewan, for up to 6 Mainpro-M1 credits.

The Royal College of Physicians and Surgeons of Canada
The Saskatchewan Psychiatric Association Annual Conference is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification (MOC) Section 1 program of the Royal College of Physicians and Surgeons of Canada.

American Medical Association
Through an agreement between the Royal College of Physicians and Surgeons of Canada and the American Medical Association, physicians may convert Royal College MOC credits to AMA PRA Category 1 Credits. Information on the process to convert Royal College MOC credit to AMA credit can be found at www.ama-assn.org/go/internationalcme.com

Nurses and other Healthcare Professionals
Participation in this conference may be included as part of the continuing education and competence programs established by individual professional associations.

SPACON - 2016 Conference... 3
HANDOUTS POSTED ONLINE
PDFs of the presentations provided by the speakers will be posted online following the conference. Please note presentations will only be available for 90 days. If you would like to obtain materials from a presentation that is not included in our online listing, please contact the presenter directly.

To access the presentation PDFs posted online:

Username: cme
Password: spa2016

Please note: Presentations posted online may be abbreviated to ensure compliance with federal copyright legislation. Please call (306) 966-7787 or cme@usask.ca if you need assistance.

DISCLAIMER
Continuing Medical Education Division, College of Medicine, University of Saskatchewan, is not responsible for any errors or omissions in website material provided by conference presenters.

EVALUATION
Evaluations will be emailed to registered delegates on Saturday, April 16, 2016.

Our online evaluation gives you the opportunity to provide quality feedback to our speakers, the organizing committee and CME staff and is an important component of conference accreditation. You do not need to complete the entire survey in one session, as responses will be saved and continued in subsequent entries.

We take your feedback seriously, and it will assist us in planning and improving your future events.

WI-FI ACCESS
Wi-Fi access is available throughout the building:
- Select HONORS Wifi Network
- In the “Stay Connected” Browser Page Select: “I have a Promo Code”
- Accept the Terms and Conditions and Select: “Submit”
- Promo Code: yqrcc2016 (not case sensitive)

ACCOMMODATING YOUR NEEDS?
We try and make you as comfortable as possible in the conference, and while we cannot control room temperatures we will try our best to accommodate your dietary interests when you register online.

Saskatchewan Medical Association
CONTINUING MEDICAL EDUCATION FUND

The Continuing Medical Education Fund assists physicians with the costs associated with continuing medical education courses and materials. Physicians may make one or more applications during a calendar year (January 1 to December 31), or may allow the funds to carry over for use in the following year. (i.e. a physician can “bank” one year’s entitlement and claim for two years worth of entitlement in the subsequent year. The maximum carry-over period is one year.) Applications must be received by January 15 following the year in which the entitlement is due to expire.

The SMA is encouraging physicians to use the extra portion of CME funding for activities related to improving leadership skills and strengthening abilities to lead system transformation.

Please note that the typical processing time for CME applications is two weeks after they are received. If you would like to know what your CME balance is, please log onto the members side of the website by clicking the “My SMA Member’s Area” button.

Please contact the SMA office at 1-306-244-2196, 1-800-667-3781 or sma@sma.sk.ca if you have any questions about the CME Fund.

| 0930  | Plenary 1: “The Neural Crossroads of Psychiatric Illness: An Emerging Target for Brain Stimulation” | Participants will be able to:  
• Consider recent evidence for a common neural substrate across most psychiatric disorders  
• Situate these regions within the larger functional neuroanatomy of the brain  
• Describe how these regions may present new targets for brain stimulation treatment across multiple forms of psychiatric illness | Dr. Jonathan Downar | Capital Ballroom A |
| 1030  | Nutrition Break / View Exhibits      |                                                                                     |                                | Capital Ballroom B |
| 1045  | Plenary 2: “Violence Risk Assessment for the General Psychiatrist” | Participants will be able to:  
• List and describe key violence risk factors  
• Integrate a risk prediction protocol into daily practice  
• Name key risk assessment tools | Dr. Gary Chaimowitz | Capital Ballroom A |
| 1045  | Plenary 3: “Improving Mental Health Outcomes Through Understanding Antipsychotics” | Participants will be able to:  
• Evaluate if antipsychotics contribute to self-reported motivation for smoking  
• Understand the relationship between clozapine, serum lipids, exercise, and the symptoms of schizophrenia  
• Examine the source and validity of the pharmacokinetic data in product monographs for the second generation long acting injectable antipsychotics | Dr. Ric Procyshyn | Capital Ballroom A |
## Conference Schedule

| 1245  | **Plenary 4:** “Do no harm....help me die: Navigating Mental Health Issues in the Turbulent Waters of Intolerable Suffering and (Ir) remediability” | Participants will be able to:  
  - Explain the context of the Carter decision ruling and its impact on “Physician Assisted Death/Medical Assistance in Dying” policy in Canada  
  - Describe issues that must be taken into account when considering key terms in the Carter decision’s ruling - like irremediable, intolerable and enduring suffering, and capacity - in the context of mental illness  
  - Recognize the input medical associations have on evolving Physician Assisted Death/Medical Assistance in Dying issues and legislation | Dr. Susan Hayton, Dr. Sonu Gaind | Capital Ballroom A |
| 1345  | **Plenary 5:** “Contemporary Conundrums in the Management of Bipolar Disorder” | Participants will be able to:  
  - Explain the role of antidepressants in the management of bipolar disorder  
  - Integrate current thinking on optimal strategies for prophylaxis of bipolar disorder  
  - Evaluate cognitive impairment in bipolar disorder and apply strategies for treating cognitive impairment | Dr. Lakshmi Yatham | Capital Ballroom A |
| 1445  | Nutrition Break / View Exhibits |                    |                             | Capital Ballroom B |
| 1500  | **Plenary 6:** “Novel Developments in the Treatment of Schizophrenia” | Participants will be able to:  
  - List novel agents and formulations in the treatment of schizophrenia  
  - Discuss improving outcomes in the acute and maintenance phases of schizophrenia | Dr. Pierre Chue | Capital Ballroom A |
| 1600  | Adjournment |                    |                             |                |

Dr. Jonathan Downar

Dr. Jonathan Downar serves as the Director of the MRI-Guided rTMS Clinic at University Health Network (UHN), and also holds the position of Scientist at the Toronto Western Research Institute. He completed a BSc in biology at McGill University, followed by a PhD in neuroimaging at the University of Toronto with Dr. Karen Davis, before obtaining his medical degree from the University of Calgary in 2005. He then returned to Toronto for his psychiatry residency training, during which he also completed a research fellowship in neuroeconomics with Dr. Read Montague at Baylor College of Medicine. Dr. Downar joined the Department of Psychiatry at UHN on completion of his residency in 2010. Shortly thereafter, he established the MRI-Guided rTMS Clinic, with a mandate to accept referrals from the community as a clinical resource, while simultaneously conducting translational research into improving the efficacy, cost, access, and range of indications for non-invasive brain stimulation in psychiatric illness. The UHN clinic now includes four treatment suites, treats volumes of 50 to 60 patients daily, and receives more than 500 referrals a year. The UHN clinic works in close collaboration with Drs. Daskalakis and Blumberger at the Temerty Centre at the Centre for Addiction and Mental Health. Dr. Downar’s research work focuses on translating advances in basic neuroimaging and neuroscience research into improvements in efficacy, capacity and cost of rTMS. His lab also seeks to identify better targets for rTMS across a wider range of conditions, and to identify neuroimaging biomarkers to predict the best treatment parameters for individual patients presenting for treatment. He currently holds an operating grant from CIHR as well as peer-reviewed funding from the Brain Canada, the Klarman Foundation and the Edgestone Foundation. His work has been published in Biological Psychiatry, Neuropsychopharmacology, Brain Stimulation and Nature Neuroscience.

Dr. Gary Chaimowitz

Dr. Gary Chaimowitz is Professor in the Department of Psychiatry and Behavioural Neurosciences at McMaster University in Hamilton, Canada. He is Head of Service, Forensic Psychiatry, at St. Joseph’s Healthcare and Forensic Division Head, McMaster University.

Dr. Ric Procyshyn

Dr. Ric Procyshyn is a Clinical Professor in the Department of Psychiatry, UBC. He also holds the position of clinical research psychopharmacologist at the BC Mental Health and Addictions Research Institute and acts as a consultant for the BC Psychosis Program. Along with his Doctor of Pharmacy degree, Ric possesses a PhD in medicinal chemistry. Dr. Procyshyn’s research interests include smoking and schizophrenia, antipsychotic polypharmacy, antipsychotic associated metabolic disorders, mechanism of antipsychotic action and drug utilization evaluations. Ric has authored several articles in peer-reviewed journals, is the principal editor of the Clinical Handbook of Psychotropic Drugs and is the co-developer of the SWITCHRX website. Dr. Procyshyn enjoys teaching and has been awarded seven teaching awards from the Faculty of Pharmaceutical Sciences, University of British Columbia.

He has a MBA from the University of Toronto and is a Certified Physician Executive (American College of Physician Executives). Recent positions of note he has held include President of the Ontario Psychiatric Association (2014-2015), President of the Medical Staff Association of St Joseph’s Healthcare Hamilton (2013-2014) and President of the Canadian Academy of Psychiatry and the Law (2008-2012). Gary currently chairs the Forensic Psychiatry Specialty Committee of the Royal College of Physicians and Surgeons of Canada, and has been granted Forensic Psychiatry Founder Status. He is also Vice Chair of the Ontario Medical Association’s Psychiatry Section, Co-Chair of the Ontario Forensic Directors Group, and sits on the Board of the International Association of Forensic Mental Health Services and Council of the American Academy of Psychiatry and the Law. He organizes the CPA ICPD, the McMaster Muskoka Seminars and the Risk and Recovery Conference. He is a Distinguished Fellow of the Canadian Psychiatric Association and American Psychiatric Association, member of the Ontario and Nunavut Review Boards, and Vice-Chair of the Ontario Consent and Capacity Board.
Dr. Susan Hayton
Dr. Hayton graduated from the College of Medicine at the University of Saskatchewan in 1985. She completed a Rotating Internship and General Surgical Residency in Calgary and practiced General Surgery in Calgary, and then Saskatoon, until 2008. She subsequently transitioned to practicing Emergency Medicine and Family Medicine. In 2008, she entered the College of Law and completed a Law Degree and then a Master of Laws Degree focused on “Accommodation of Religious and Cultural Differences in Medical School Training”. Dr. Hayton is a Council member and member of the Executive Committee of the Canadian Medical Protective Association (CMPA), representing Saskatchewan, Northwest Territories and Nunavut. She is currently a member of the Academic Family Medicine Department, practicing Family Medicine at West Winds Primary Health Centre. She is responsible for, and teaches, Ethics and Medico-Legal Education in the College of Medicine.

Dr. Sonu Gaind
Dr. Sonu Gaind is an Associate Professor with the University of Toronto's Department of Psychiatry and a past-president of both the Ontario Psychiatric Association and of PAIRO (the provincial medical residents association). He serves as the Ontario representative on the Canadian Psychiatric Association Board and Executive Committee and was elected President-Elect of the Canadian Psychiatric Association (CPA) in 2014. Dr. Gaind has been actively involved in health policy development and advocacy for many years. In his various roles he has helped form health policy, developed service delivery models to improve patient care and access for high-need/high-risk patient populations, negotiated significant increased resources for mental health care for disadvantaged psychiatric patient populations, and engaged medical colleagues across the province and country to be more aware of and advocate against stigma and policies that discriminate against those with mental illness. He has been acknowledged nationally and provincially for his teaching and advocacy work, receiving a CPA Presidential Commendation in 2009 for his role in significantly advancing the practice of psychiatry in Ontario. He is also the recipient of the Jane Chamberlin Award for Outstanding Contributions to General Hospital Psychiatry, the University of Toronto Henry Durost Award for Excellence in Creative Professional Activity, the CPA-COPCE Award for the Most Outstanding Continuing Educational Activity in Canada and the Toronto French School Prix de Distinction des Anciens Élèves for making a significant impact in both his professional field and the community. In addition to his academic and leadership roles, Dr. Gaind has maintained a community practice consulting to family physicians since residency. For over a decade he worked as a psycho-oncology consultant at Princess Margaret Hospital in Toronto, and in 2014 left the hospital to take on the role of Chief of Psychiatry and Medical Director of Mental Health at the new Humber River Hospital, North America’s first fully digital hospital.

Dr. Lakshmi Yatham
Dr. Yatham's major areas of research interest include neurobiology and treatment of BD and major depression. Dr. Yatham was a recipient of the Michael Smith Foundation Senior Scholar Award, and his work has been funded by a number of peer-reviewed funding agencies such as the Canadian Institutes of Health Research, Canadian Psychiatric Research Foundation, Stanley Foundation, and National Alliance for Research on Schizophrenia and Depression, USA. Dr. Yatham leads a Canadian consortium on BD, which is currently pursuing testing of new treatments for BD using pragmatic and controlled trials with substantial funding from CIHR. He co-led the development of Canadian guidelines for treatment of BD in 1997 and his group recently revised the guidelines for 2005 and these were published with
International Commentaries in Bipolar Disorders Journal in June. He is Chair of the bipolar group of the Canadian Network for Mood and Anxiety Treatments (CANMAT), and is actively involved at a national and international level in continuing medical education and public education on diagnosis and treatment of BD for psychiatrists, family physicians, and the general public.Dr. Yatham is currently the President for the International Society for Bipolar Disorders and he is on the editorial boards of a number of journals including Bipolar Disorders, Brain Pharmacology, Human Psychopharmacology, Quarterly Journal of Mental Health etc. He has published over 140 papers in peer-reviewed international journals and presented his research work at numerous international conferences. Dr. Yatham is a ‘qualified health researcher’ (QHR) within the CREST.BD team.

Dr. Pierre Chue
Dr. Chue is currently in full-time clinical practice as Edmonton Zone Department Head and Site Chief for Addictions and Mental Health for Alberta Health Services, Mental Health Lead, Supportive Living, Edmonton Zone, and Consulting Psychiatrist with Telemental Health Services for the Province of Alberta. He is a Clinical Professor in the Department of Psychiatry at the University of Alberta. He serves on the Mental Health Review Panel for the Provincial Government of Alberta. Dr. Chue was formerly Associate Director of the Psychopharmacology Research Unit and Director of the Psychiatric Intensive Care Unit in Edmonton. He was also Interim Clinical Director for Learning Disability, Edmonton Zone, Occupational Stress Injury Services, and Forensic Outpatient Services. Dr. Chue completed his medical degree (MBBCh) and psychiatric specialization (MRCPsych) in the UK before moving to Canada in 1991 where he subsequently obtained Canadian medical (LMCC) and specialist qualifications (FRCPC) as well as American Boards Certification in Psychiatry and Neurology (DABPN) in 1998. He completed an MSc in Psychiatry at the University of Alberta in 2002. He was elected a Fellow of the Royal College of Psychiatrists (FRCPsych) in 2004 and was designated a Certified Specialist in Psychiatry (CCST) in 2004. Dr Chue’s main interest is in clinical psychopharmacology, particularly concerning psychotropic side effects (movement disorder, metabolic syndrome, sexual dysfunction, sudden unexplained death, drug-drug interactions), adherence, patient satisfaction, drug delivery systems, etc. He is currently the Director of the Clinical Trials and Research Program, Edmonton, and has been involved in more than 50 clinical trials in the areas of schizophrenia, bipolar disorder, depression, anxiety disorders, smoking cessation, and sexual dysfunction. He has also designed and run, as principal investigator, numerous national and international clinical trials as well as conducting rater training and helping develop patient satisfaction rating scales. Dr Chue has also provided medico-legal opinions and independent medical examinations (IMEs) for Coroners’ offices, Police services, health authorities and hospitals (Canada and US), pharmaceutical, IME and insurance companies, major corporations, law firms, Justice Canada, Canadian Border Services Agency, Canadian Medical Protective Association, and College of Physicians and Surgeons of Alberta. He has chaired the Medical Panel of the Alberta Workers Compensation Board. He has testified as an expert witness in Canada, US, and UK on an individual plaintiff basis and for national class action law suits. He has provided submissions to reimbursement, approval and formulary committees including the Therapeutic Products Directorate and Patent Medicines Price Review Board for the Government of Canada, Ontario Drug Benefit Plan as well as Alberta Blue Cross. Dr Chue is author or co-author of more than 120 articles and abstracts in peer reviewed medical journals, book chapters, and scientific symposia. He teaches students in medicine, pharmacy, neuroscience, psychiatry, psychology, and nursing from around the world. He has completed evaluations of clinical competency and clinical practice readiness for the College of Physicians and Surgeons of Alberta as well as supervising IMG/FMGs. He is a frequent invited contributor at major psychiatric congresses and reviewer for psychiatric journals. He has given more than 600 presentations and media interviews in English and French and was rated in the 2004 Canadian Universities Cormex Report as the most frequently quoted physician in the Canadian media. As a medical educator he has facilitated knowledge transfer and continuous professional development and developed accredited (national and international) educational programs, master classes, symposia and conferences, clinical practice tools and audit applications for healthcare professionals for Universities, Canadian Psychiatric Association, Royal College of Physicians and Surgeons of Canada, Alberta Health Services, Institute of Health Economics and industry.
