A Summary of Student Engagement Results

Student engagement represents two critical features of collegiate quality. The first is the amount of time and effort students put into their studies and other educationally purposeful activities. The second is how institutional resources, courses, and other learning opportunities facilitate student participation in activities that matter to student learning. NSSE surveys undergraduate students in their first and final years to assess their levels of engagement and related information about their experience at your institution.

This Snapshot is a concise collection of key findings from your institution’s NSSE 2020 administration. We hope this information stimulates discussions about the undergraduate experience. Additional details about these and other results appear in the reports referenced throughout.

### Engagement Indicators

Sets of items are grouped into ten Engagement Indicators, organized under four broad themes. At right are summary results for your institution. For details, see your Engagement Indicators report.

**Key:**

- Your students' average was significantly **higher** \((p < .05)\) with an effect size at least \(.3\) in magnitude.
- Your students' average was significantly **lower** \((p < .05)\) with an effect size less than \(.3\) in magnitude.
- No significant difference.

### High-Impact Practices

Due to their positive associations with student learning and retention, special undergraduate opportunities are designated "high-impact." For more details and statistical comparisons, see your High-Impact Practices report.

#### First-year

- Service-Learning, Learning Community, and Research w/Faculty

#### Senior

- Service-Learning, Learning Community, Research w/Faculty, Internship, Study Abroad, and Culminating Senior Experience
Academic Challenge: Additional Results

The Academic Challenge theme contains four Engagement Indicators as well as several important individual items. The results presented here provide an overview of these individual items. For more information about the Academic Challenge theme, see your Engagement Indicators report. To further explore individual item results, see your Frequencies and Statistical Comparisons, the Major Field Report, the Online Institutional Report, or the Report Builder.

Time Spent Preparing for Class

This figure reports the average weekly class preparation time for your students compared to students in your comparison group.

Reading and Writing

These figures summarize the number of hours your students spent reading for their courses and the average number of pages of assigned writing compared to students in your comparison group. Each is an estimate calculated from two or more separate survey questions.

Challenging Students to Do Their Best Work

To what extent did students' courses challenge them to do their best work? Response options ranged from 1 = "Not at all" to 7 = "Very much."

Academic Emphasis

How much did students say their institution emphasizes spending significant time studying and on academic work? Response options included "Very much," "Quite a bit," "Some," and "Very little."
Item Comparisons
By examining individual NSSE questions, you can better understand what contributes to your institution’s performance on the Engagement Indicators. This section displays the five questions on which your students scored the highest and the five questions on which they scored the lowest, relative to students in your comparison group. Parenthetical notes indicate whether an item belongs to a specific Engagement Indicator or is a High-Impact Practice. While these questions represent the largest differences (in percentage points), they may not be the most important to your institutional mission or current program or policy goals. For additional results, see your Frequencies and Statistical Comparisons report.

First-year

Highest Performing Relative to U15
- Participated in a learning community or some other formal program where... (HIP)
- Institution emphasis on using learning support services (..." (SE)
- Instructors provided feedback on a draft or work in progress" (ET)
- Instructors provided prompt and detailed feedback on tests or completed assignments" (ET)

Lowest Performing Relative to U15
- Discussions with... People of a race or ethnicity other than your own (DD)
- Spent more than 10 hours per week on assigned reading (f)
- Worked with other students on course projects or assignments (CL)
- Assigned more than 50 pages of writing (g)
- Spent more than 15 hours per week preparing for class

Senior

Highest Performing Relative to U15
- Institution emphasis on providing support for your overall well-being...” (SE)
- About how many courses have included a community-based project (service-learning)? (HIP)
- Institution emphasis on using learning support services (..." (SE)
- Institution emphasis on providing support to help students succeed academically" (SE)
- Quality of interactions with academic advisors (QI)

Lowest Performing Relative to U15
- Participated in a study abroad program (HIP)
- Discussions with... People of a race or ethnicity other than your own (DD)
- Institution emphasis on studying and academic work (c)
- Spent more than 15 hours per week preparing for class
- Participated in an internship, co-op, field exp., student teach., clinical placement. (HIP)
How Students Assess Their Experience

Students' perceptions of their cognitive and affective development, as well as their overall satisfaction with the institution, provide useful evidence of their educational experiences. For more details, see your Frequencies and Statistical Comparisons report.

Perceived Gains Among Seniors

Students reported how much their experience at your institution contributed to their knowledge, skills, and personal development in ten areas.

<table>
<thead>
<tr>
<th>Perceived Gains</th>
<th>Percentage of Seniors Responding “Very much” or “Quite a bit”</th>
</tr>
</thead>
<tbody>
<tr>
<td>Thinking critically and analytically</td>
<td>85%</td>
</tr>
<tr>
<td>Writing clearly and effectively</td>
<td>74%</td>

What is NSSE?

NSSE annually collects information at hundreds of four-year colleges and universities about student participation in activities and programs that promote their learning and personal development. The results provide an estimate of how undergraduates spend their time and what they gain from attending their college or university. Institutions use their data to identify aspects of the undergraduate experience that can be improved through changes in policy and practice.

NSSE has been in operation since 2000 and has been used at more than 1,600 colleges and universities in the US and Canada. More than 90% of participating institutions administer the survey on a periodic basis.

Visit our website: nsse.indiana.edu

Additional Questions

Your institution administered the following additional question sets:

- First-Year Experiences and Senior Transitions
- G13-x-Ontario

See your Topical Module and Consortium reports for results.
